PROCEDURE

Council's approach to debt will incorporate the following principles:

- the appropriate mix of debt to internal funding used is intended to provide the lowest long term level of rates which does over commit Council in the future,
- borrowing should provide adequate flexibility in the short term,
- the total debt accrued should depend on future outlook for growth in the Shire area, and;
- the term of the debt will relate to the life of the asset obtained by borrowing but will not exceed 20 years for any individual asset.

Council will aim to reduce the overall level of debt by continuing repayments as per the adopted schedules set by the lending institute.

In order to provide the best possible service for ratepayers, Council will restrict the purpose of loans to asset acquisition and capital expenditure. As the outcome of borrowing for these purposes will benefit present and future generations and the cost is fairly shared across the years. Council is not expected to borrow funds over the next 5 years:

The time over which it is planned to repay an existing loan is as follows:

Balance as at 30/6/2022	Purpose of Borrowing	Annual Repayments	Remaining Term (Years)	Interest Rate
